Suparan Sharma *[Software Engineer]*

suparansharmap@gmail.com | 01789085098 | Nikunjja-2,Khilkhet,Dhaka
SUPARAN SHARMA PRANTO | Suparan Sharma | Suparan Sharma

Profile

Experienced **Frontend Developer** with strong expertise in **Next.js** and **React.js**, along with solid knowledge of **Node.js**, **Laravel**, and **MongoDB**. Proven track record of developing **responsive**, **dynamic**, and **user-friendly interfaces** for systems like **ERP**, **CRM**, **eCommerce platforms**, **Hotel Management Systems**, **POS**, and **portfolio management platforms**. Dedicated to writing **clean, efficient code** with a strong focus on **UI/UX design**, **scalability**, and **performance optimization**. Skilled at managing multiple tasks, solving complex challenges, and delivering **high-quality results** on time. Additionally, experienced in **server management using cPanel** and implementing **CI/CD pipelines** with **GitHub** and **GitLab** for **automated deployments**, ensuring smooth and reliable **application delivery**. Currently responsible for **leading and mentoring junior developers and interns**, guiding them in **coding standards**, **project workflows**, and **collaborative development**.

Skills

Programming Languages
Javascript, TypeScript, PHP

Frontend Development
React, Next.js, Redux, HTML, CSS,Tailwind CSS,Bootstrap, Material UI, Ant Design (antd)

Backend Development
Node.js, Express.js, Laravel

Version Control:
Git, GitHub , GitLab

Database & Others:
SQL, Mysql,MongoDB,Firebase, REST APIs

Deployment and Hosting
Vercel, Netlify, cPanel

Professional Experience

Southeast University May 2025 – Present | Dhaka, Bangladesh
Software Engineer

- Developed and currently maintain the university's **main website**, built using **Laravel (backend)** and **React.js with Inertia.js (frontend)**.
- Implemented a fully **dynamic and SEO-friendly** system, leveraging URL **slugs**, meta handling, and best practices for discoverability.
- Designed the frontend with **Tailwind CSS**, ensuring full **responsiveness** across all devices and browsers.
- Built a custom **admin panel** in Laravel to allow non-technical users to manage website content efficiently.
- Manage all server-side operations using **cPanel**, including database, DNS, file, and deployment configurations.
- Integrated **CI/CD workflows** with **GitHub**, enabling automated deployment processes for seamless updates and continuous integration.

DataHost IT Dec 2023 – May 2025 | Dhaka, Bangladesh
Software Engineer

- Engineered scalable web solutions using **React.js**, **Next.js**, **Node.js**, **Laravel**, and **MySQL**, delivering high-performance applications tailored to user needs.
- Streamlined transaction processes by integrating secure payment systems, including **SSLCommerz** and **bKash**.

- Led implementation of an **ERP system,** improving workforce automation and operational efficiency.
- Built and maintained large-scale **Node.js** and **Laravel** projects with **RESTful APIs**, optimizing backend communication and data workflows.

PAP INTERNATIONAL LTD Jul 2022 – Nov 2023 | Dhaka, Bangladesh
Junior Software Engineer

- Specialized in **frontend development**, creating interactive and responsive user interfaces using **React.js**.
- Collaborated with design and backend teams to ensure seamless integration and functionality across applications.
- Utilized modern UI frameworks like **Material UI**, **Bootstrap**, and **Tailwind CSS** to craft visually appealing and user-centric designs.
- Optimized frontend performance and ensured cross-browser compatibility for all projects.
- Delivered scalable and maintainable code by adhering to best practices and implementing efficient state management solutions such as **Redux**.

American International University-Bangladesh (AIUB) Jun 2021 – Jan 2022 | Dhaka, Bangladesh
Teaching Assistant(TA)

As a lab assistant, provide support to the student with lab tasks, assist faculty to conduct the lab, and solve the difficulties faced by the students

Projects

Hotel management
Project Links (Admin || Web)

- Developed a **full-featured hotel management system** covering HRM, accounting, room booking, and administration.
- Designed a **responsive frontend** with **Next.js**, ensuring seamless navigation.
- Integrated APIs for real-time updates and dynamic data handling.
- Built a **secure backend** with **Laravel** and **MySQL** for data management.
- Key features include room booking, employee management, and real-time reporting.

Technologies: JavaScript, Typescript ,Next.js, Bootstrap, Material UI , Laravel, MySQL

Sismoo(Online Social Services)
Live

- Created a complete platform with an **admin panel** in **React.js** and a **customer-facing site** in **Next.js**.
- Implemented a **license management system** for secure product authentication.
- Built a scalable backend with **Node.js** and **MongoDB**.
- Ensured **responsiveness** and **SEO optimization** for enhanced user experience.

Technologies: JavaScript, Next.js,ReactJs, Tailwind CSS, Express.js (Node.js), MongoDB

Hotel management Web Page
Live || Source

I have implemented the page design and also responsive view and working with many features. Those features I have Implemented by call the API.This page is handled by the Hotel management Admin dashboard.

Technologies Used:

Programming Language: JavaScript,Typescript
UI Libraries: Bootstrap,Material UI
Database: MySql

Frontend Framework: Next.js
Backend Framework: Laravel
Version Control: GitHub

Ittady(Online Shop)

- **Live**

I worked on an online shop project as a full-stack developer, managing key aspects like product listings and a discount system through an admin panel. I contributed to both the frontend and backend development.

Technologies Used: JavaScript , Next.js, Tailwind CSS **,**Express - Node.js, MongoDB

Glassyland

Live

- Built a dynamic **eCommerce platform** with all systems managed via an **admin panel**.
- Integrated **bKash** and **SSLCommerz** for secure payment processing.
- Developed a robust **filtering system** to enhance product search functionality.
- Implemented **mobile OTP-based login and registration** for added security.
- Designed and developed dynamic product listings, discounts, and user management features.
- Contributed to both **frontend** and **backend** for seamless operations.

Technologies: JavaScript, Next.js,ReactJs, Tailwind CSS, Express.js (Node.js), MongoDB

Tuition Media

Live

- Developed a platform connecting students with tutors for personalized learning.
- Added **filters** for finding tutors by subject, location, and qualifications.
- Built a **secure backend** with **Node.js** and **MongoDB** for real-time matching.
- Oversaw **architecture, deployment**, and **maintenance**.

Technologies: JavaScript, Next.js, Tailwind CSS, Express.js (Node.js), MongoDB

Southeast University Website

Main Site

- Developed and deployed the official **Southeast University website**, making it fully **dynamic** and **SEO-friendly**.
- Built a scalable **backend with Laravel**, including a powerful **admin panel** for managing all website content.
- Designed the **frontend with React.js (Inertia.js) and Tailwind CSS**, ensuring a responsive, modern, and user-friendly interface.
- Implemented **slug-based routing** for SEO optimization and improved content discoverability.
- Integrated **subdomain-based features** to support modular site expansion and dedicated sections for different departments.
- Established automated **CI/CD pipelines via GitHub**, enabling smooth updates and deployments directly to cPanel.

Technologies: Laravel, Inertia.js (React.js), Tailwind CSS, MySQL, GitHub CI/CD, cPanel

Southeast University Convocation Website

Live

- Designed and developed the official S**outheast University Convocation website** using raw **PHP and Tailwind CSS**, ensuring a clean, fast, and responsive user experience.
- Built a **lightweight, framework-free structure** optimized for high performance, stability, and maintainability.
- Implemented a **dynamic and reusable component-based structure** in PHP for easy content updates and scalability.

- Focused on **SEO optimization, mobile responsiveness**, and **cross-browser compatibility** to enhance accessibility and user engagement.
- Deployed and managed the website through **cPanel**, ensuring smooth operation and reliable uptime.

Technologies: PHP, Tailwind CSS, HTML, CSS, JavaScript, cPanel

Southeast University Career Portal

- Designed and developed the official **Career Portal** for **Southeast University**, streamlining the university's online recruitment process.
- Built the platform using **Laravel** and **Tailwind CSS**, ensuring a **fully responsive, secure**, and **user-friendly** interface for applicants and administrators.
- Implemented **dynamic job posting, application management,** and **automated data handling** features for efficient HR operations.
- Focused on **SEO optimization, performance tuning**, and **clean code structure** to ensure fast loading and maintainability.
- Deployed and managed the entire system using **cPanel**, integrating **GitLab CI/CD** for smooth version control and continuous deployment.

Technologies: Laravel, Tailwind CSS, MySQL, GitLab CI/CD, cPanel

Education

BSc. in Computer Science and Engineering(CSE) Jan 2018 – Jan 2022 | Dhaka, Bangladesh
American International University-Bangladesh(AIUB)
CGPA : 3.51

Higher Secondary Certificate (HSC) 2017 | Kushtia, Bangladesh
Kushtia Govt. College
GPA : 4.78

Secondary School Certificate (SSC) 2015 | Kushtia, Bangladesh
Kushtia Zilla School
GPA : 5.00

Additional Information

Passion for Innovation and Growth

- Enthusiastic about leveraging modern tools and technologies to create impactful solutions.
- Driven to contribute to innovative projects that challenge and enhance my technical skills.

Continuous Learning

- Actively engaged in expanding knowledge of emerging technologies and frameworks.
- Passionate about staying ahead in the fast-evolving tech landscape through continuous self-improvement.

Commitment to Excellence

- Focused on delivering high-quality work that aligns with user and business needs.
- Strong attention to detail, ensuring precision in all aspects of development and design.

THESIS

THOUGHTS OF A CASHLESS SOCIETY: A DIGITAL CURRENCY FRAMEWORK FOR BANGLADESH ECONOMY. Jan 2021 | Dhaka,Bangladesh

Domain: Central Bank Digital Currency (CBDC)
Technology: Blockchain.
